Will have to carefully consider this. Since expressing initial interest I have heard some very discouraging stories about folks being heavily hazed (death threats and property damage) and run out of town by this very group. Interested to hear your thoughts, concerns, and plan for how this could work as I remain interested in getting this done without compromising my organization's location or focus. BR

Hi all-

I'm attaching AMRA/Poe's response to our 308 and their recent facebook posting about the letter (see pg. 4). We are currently considering our enforcement options. I was wondering, in the meantime, for those of you who observed the dredging and took photos or videos, would you be willing to testify in a court of law to what you witnessed?

Thanks.
